Soul of the World Particle of Experience Now emerging through five realms of reality:
(1) Primordial (2) Essential (3) Soulful
(4) Form - Vessel (5) Experiential

For seven years, beginning in 2007, I underwent a perplexing and tumultuous series of events that became the catalyst for my soul revealing herself to me, while at the same time stripping away anything that was not her true essence. I later came to call this process, ensoulment. This book introduces the deep experiences, the vivid visions and clear transmissions that streamed through my psyche and culminated in the inception of a profound model explaining how the universe comes into being and how we play a very personal role in it. The final model revealed, links our personal soul, with our collective soul, with the Soul of the World through "particles of experience". I found the realizations so compelling for "first time soul travelers" that I decided to write about it.

Who is your soul, what is her language, what are her primary archetypes and why did she choose to journey in a human form? Is Ensoulment the same for everyone and who is the Soul of the World? Revealing and living our primordial blueprint, our soul's DNA, is crucial not only to our well being, but to the evolution of our species and the cosmos as a whole. Allow yourself to adventure into ensoulment, to taste your soul, to decipher her whispers and possibly fulfill your destiny.

ADDENDUM

For seven years, beginning in 2007, I underwent a perplexing and tumultuous series of events that became the catalyst for my soul revealing herself to me, while at the same time stripping away anything that was not her true essence. I later came to call this process, ensoulment. The Ensoulment model introduces the deep experiences, the vivid visions and clear transmissions that streamed through my psyche and culminated in the inception of a profound framework explaining how the universe comes into being and how we play a very personal role in it. The final model revealed, links our personal soul, with our collective soul, with the Soul of the World through “particles of experience”. I found the realizations so compelling for “first time soul travelers” that I decided to write about it.

Who is your soul, what is her language, what are her primary archetypes and why did she choose to journey in a human form? Is Ensoulment the same for everyone and who is the Soul of the World? Revealing and living your primordial blueprint, your soul DNA, is crucial not only to our well being, but to the evolution of our species and the cosmos as a whole. Allow yourself to adventure into ensoulment, to taste your soul, to decipher her whispers and possibly fulfill your destiny.

Live your Soul, Experience the Soul of the World

Enoulment Fundamentals:

1. Different aspects of our soul develop through five key phases: 1- waking up 2- soullessness 3- alchemy 4- ensoulment 5- Soul of the World.
2. The world is made of one soul, one alive organism that is conscious, energetic and vibrational. That being lives, breathes and develops through each one us and in return grants us the abundance vitality and creativity of our very own life force.
3. Our personal soul and the Soul of the World are in a continuous dance that is yearning to reveal to itself what is possible for it to become.
4. Our soul and the Soul of the World interact and grow through “particles of experiences” that both inform and feed the unfoldment of events in our lives.
5. Our world is made intelligent, creative and self knowing “particles of experiences” that generate and inhabit vessels in order to heal, develop qualities and create new expression of themselves.
6. There is a continuous stream of particles that is emanating and to and from the five realms at all times: 1- primordial 2-essential 3-soulful 4-physical vessels 5- experiential.
7. The personal soul development of each created being is crucial to the evolution of the entire cosmos and to the fulfillment of universe.
8. Enoulment model explores what is a soul and how can a person connect with his/her own soul?
9. How does essence and soulful and physical vessels develop and fertilize the soul of the world.
10. The integration of dark, painful, unconscious and disowned parts of our reality are crucial for the development of our soul and the Soul of the World.
11. The human soulful development on planet earth has a significant role in the evolution of the entire cosmos.
12. How do you articulate and develop your personal cosmology and how it impacts the cosmos.
13. What is the connection between your body and your soul and what can we learn from that about the Soul of the World.
14. How Intimacy, with self, with another, with a collective, with ideas, nature or with the entire universe create new pathways for collective soul development.
15. How do we distinguish between our soul’s needs, desires and wishes vs obsessive impulses, patterns and imprinting that have different quality of soul particles.
16. The importance of archetypes, synchronicity, collective soul to the Soul of the World.
17. How do habits, programs and patterns serve or delay the evolution of our soul.
18. What is the relationship between presence, here and now and the Soul of the World?
19. How does the Soul of the World remember all the experiences that ever differentiated from the primordial field, in all places, at all times, through all vessels ? How does the Soul of the World dynamically and organically lives and breathes with us and through us?

1) ENSOULMENT IS A COSMOLOGY - In this presentation I introduce a cosmological perspective, what is a soul, how does our soul come into being, how does it interact with the Soul of the World to create existence in every moment.

2) INSIDE OUT PROCESS - For mystics, psychologists, innovators, writers, painters, dancers or scientists, our visions comes from the inside out.

3) PERSONAL SOUL STORY - From Beirut- to Tel Aviv- to San Francisco and -Back to Tel Aviv personal inquiry meets inner experience to reveal intuitive insights giving temporary relief to my biggest life questions.

4) TRUTH REVEALED- how the universe comes into being how we play a very personal role in it.

5) PARTICLES OF EXPERIENCE MODEL - Ensoulment links our personal soul, with our collective soul, with the Soul of the World through “particles of experience” coded in 24 elements shaping our perception of experiences.

6) APPLICATIONS- ensouled experiences, ensouled encounters, ensouled design, ensouled relationships, ensouled organizations, ensouled nations and ensouled world.

Live your Soul, Experience the Soul of the World

Moment by Moment Arising of Soulful Particles of Experience

Sxp- Soulful Particle of Experience, self creative, self evolving, self learning, self healing, responsive, dynamic, real time, interactive emerging unique soul essence.

(-Sxp1, -S2, -S3): Possible "prior" moments

(Sxp1, S2, S3): Possible "next" moments

Sxp Wave is the soul's patterned impulse toward the Good, the True & Beautiful.

Toward the neutral, vital, peaceful, loving, empathic, balanced, harmonious, stable, connected, creative, innovative unfolding with the Soul of the World.

Healing Process occurs naturally when space and conditions

for the moment by moment soulful unfolding is present.

Healer can (consciously or unconsciously) witness and influence the quality and the direction soul (Sxp) arising.

Healing process occurs more often in a loving neutral space where

the the unfolding of the ecological system of the soul is allowed her true expression.

Healing Space decodes:

Soul's Language- how and what does the soul communicate

Soul's Landscape where has the soul been, what are the ripples of her experience?

Soul's DNA- what are the soul's unique true colors and essence

Soul's Story - what did the soul go through, what was she thinking, feeling, sensing, intuiting, relating, singing, dancing, painting or aching.

Soul's Field- what are the Soul's primary vibrational-energetic-consciousness wave patterns

Healer for self/others creates safe and neutral space and conditions for Soulful unfolding Sxp1, S2, S3 to occur.

Healer allows, observes and decodes the soul's story.

Healer is curious how the 24 elements of Ensoulment are alive

in the soul's life and work to recalibrate the imbalanced elements in order to facilitate spontaneous healing.

Healer asks questions, listens deeply to her own intuition.

Healer brings Sxp to the forefront of the soul's now and dissolves outdated patterns to the background.

Healer deciphers symptoms, intensity, frequency, timing, location, memories,

metaphors, archetypes, perspective, soul absence story, primary trauma, significant events,

outdated imprinting, energetic entities and mind-body-spirit- soul personality imbalance story.

Healer reveals how the 24 elements express themselves in the energy body and seven chakras,

she plays with the 24x7 influencers to invite Sxp to arise and does a knowledge transfer

and stabilize a new balanced state, tools and routine so soulful truth is continuously expressed.
